

KC Life Dental and VSP Vision Provider Search & Employee Tools

Visit www.kclgroupbenefits.com

DENTAL:

Under the “Employees” section, click on “Dental Provider Search”

Search by Zip Code or State and enter parameters.

NOTE: The Kansas City Life Dental Alliance is comprised of multiple networks. It may not be sufficient to call your provider to ask if they are “in-network” for KC Life. They will probably not know the answer. Check on the website or call the tollfree number listed on the site for assistance. If a provider asks what kind of plan you have, you are on a PPO plan. This means something to the provider because they know that you can obtain services from any provider and there is still a benefit that will be paid out.

*Always be sure to obtain a pre-determination of benefits for larger services.

VISION:

Under the “Employees” section, click on “Vision Provider Directory”

We will be utilizing the “VSP Vision Care Providers”

Click the link and follow the prompts!

ID cards are not provided by VSP. Providers can view benefits by simply entering the employees’ information. Employees only need to inform providers that they are VSP members. If the provider is in the network, they will know what to do!

Obtain ID Cards:

Under the “Employees” section, click on “Request Dental/Vision ID Card”

Enter group number and SSN and submit

Create On-Line Account

Under the “Employees” section, click on “Dental Explanation of Benefits” and proceed to sign up process
