Value Added Services

All enrolled employees will have 24-hour access to a travel assistance program, ID theft protection and beneficiary companion services through Generali Global Assistance (GGA).

- Travel Assistance – GGA will provide assistance in case of an emergency when traveling more than 100 miles away from home. Emergencies may include medical emergencies, mass casualty and global crises.
- Beneficiary Companion – The death of a family member triggers a series of tasks that require immediate attention. Attempting to remember all of the necessary notifications and cancellations may be overwhelming. This program allows beneficiaries to focus on the healing process while GGA handles the administrative details that will protect them and their families.
- Identity Theft Protection and Assistance provides access to GGA 24 hours a day, 7 days a week to assist with ID theft prevention and resolution.

This outline is intended to be a brief summary of your benefits and does not include all plan provisions and limitations. Details of your benefits may be found in your certificate booklet. If there are any discrepancies between this outline and the certificate, the certificate governs.
