We all know good dental care is part of good medical health. That is why your employer is providing an opportunity for you to enroll yourself and your dependents in a dental plan. It's time to brush up on dental insurance.

Cavities (also called tooth decay) are one of the most common chronic conditions in the United States. By age 34, more than 80 percent of people have had at least one cavity. More than 40 percent of adults have felt pain in their mouth in the last year.

Oral health has been linked with other chronic diseases, like diabetes and heart disease. It is also linked with risk behaviors like using tobacco and eating and drinking foods and beverages high in sugar.

By enrolling in dental coverage through Kansas City Life Insurance Company, you will be covered for regular exams, cleanings and other necessary dental procedures. You will have the opportunity to positively affect your oral health and possibly prevent future health problems that could derive from lacking oral care.
