Find in-network doctors and hospitals with our convenient provider search tool

The help you need to pick your plan

We're here to help you stress less — and save more — when choosing your health plan. It's simple with our provider search tool. You'll be able to check plans to see if the doctors and sites of services you use are in network for our plans.

The tool lets you search for and learn more about doctors, hospitals, walk-in clinics, labs and other health providers in your area.

More helpful details

Use your custom provider search tool — in English or Spanish — to find doctors, hospitals and other health care providers that participate in the Aetna network. You'll also find useful information, such as:

- Whether your plan is accepted
- Office locations and directions
- Provider's gender, where they went to school, hospital affiliations and languages spoken
- Whether providers are accepting new patients

Because staying in network helps you keep your medical costs lower.

Multiple ways to search

You can search using a doctor or facility's name, or by:

- City, state, ZIP code
- Specialty
- Common procedure types, such as flu/vaccine shots or back care

You can even search for doctors who treat specific conditions.
